

Appendix figure 1: CUSUM-plots

Cumulated sum (CUSUM) of deviations from the first three-year average incidence plotted as time series year by year with control lines showing a marked increase for both sexes combined (panel A), females (panel B) and males (panel C). CL (centerline), UCL/LCL (upper/lower control limit), SH (cumulative sum on the high side of the first three-year average), SL (cumulative sum on the low side of the first three-year average).
